Neoprene contact glue

Drill

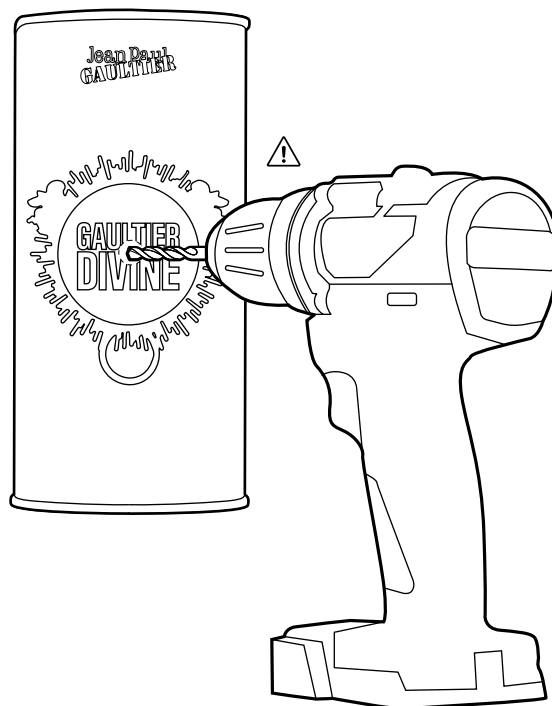

The methods for recycling our fragrance cans are recommendations only; please use all tools and materials safely. Take all necessary safety precautions and follow all the instructions for use of the suggested tools and materials.

Jean Paul Gaultier declines all liability for damages that may result from following these tutorials and/or the use of the recommended materials/tools.

1 Remove the red base.

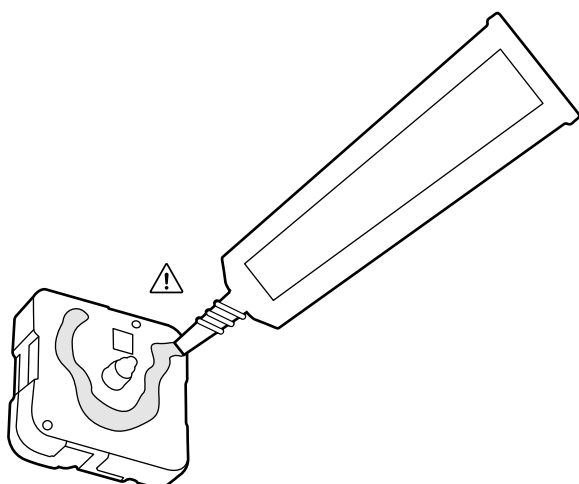

2 Drill a hole in the centre of the can.

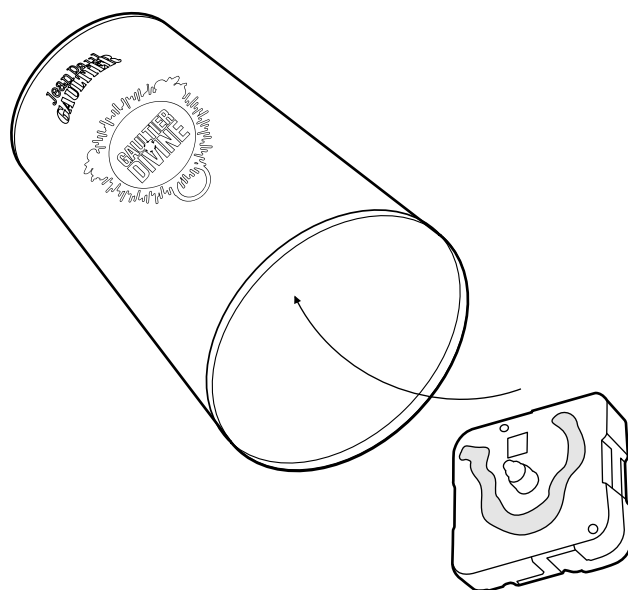

⚠ Be careful. Operating a drill can be dangerous.

3 Apply a generous amount of the neoprene glue to the clock mechanism to attach it to the inside of the can.

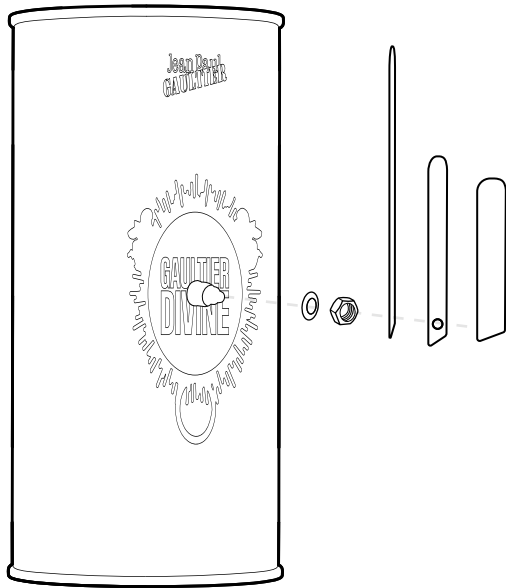

4 From below, carefully insert the clock mechanism into the hole.

*Moisture resistant and ideal for metal.
Careful: handling glue can be hazardous.

- 5** When the glue is dry, insert the bolt and then attach the second hand, the minute hand and finally the hour hand.

- 6** Your new clock is all ready to use!
